About the name

Booger County Woodworking is located in Robertson County, Texas, also known as "Booger County". There has been much debate as to the actual origins of the name. Some say it was dubbed "Booger County" in the late 1970's, after a series of "Bigfoot" sightings and attacks.

Others say the name dates back to the late 1800's when Indians and highway men were the supposed "boogers". Still other tales are shared around the campfire of two old pranksters who, at the turn of the century, wore costumes and made noises in the woods to frighten the neighbors.
